Technical specifications

Dimensions
750 × 465 × 780 mm

Firebox dimensions
610 × 310 × 360 mm

Heat output
13–19 kW

Water heat output
6–10 kW

Weight
134 kg

Top flue outlet
Ø150 mm

Airwash / secondary air

Tertiary air

Central heating

PRODUCT BENEFITS

B Max E 3.0

Details that make a difference.

High efficiency (80%+)

More heat with optimal wood consumption.

Advanced combustion technology

Secondary and tertiary air enable cleaner and more efficient combustion.

Automatic primary air regulation

Maintains a stable combustion process and increases ease of use.

Airwash glass system

Keeps the panoramic glass cleaner and provides a clear view of the flame.

Panoramic door with ceramic glass

A wide view of the fire creates a unique ambience and highlights the beauty of the flame.

Firebrick + vermiculite combustion chamber

Better heat retention and more efficient combustion.

Innovative boiler construction

A specially designed system guides tertiary air through the rear part of the boiler, contributing to the high efficiency of the unit.

Extra large firebox

Allows less frequent loading and longer heat retention with stable operation.

Wood storage area

A practical solution for everyday use.

Low emissions

Cleaner combustion with reduced environmental impact.
