Tertiary air

PRODUCT BENEFITS

Berna Lux G 4.0

Details that make a difference.

High efficiency (80%+)

Efficient and reliable heating with optimal wood consumption.

Secondary and tertiary air

Advanced combustion system for better performance and cleaner operation.

Airwash glass system

Keeps the glass cleaner and provides a clear view of the flame.

Door with ceramic glass

Combines functionality with visual enjoyment.

Firebrick + vermiculite combustion chamber lining

Better heat retention and more efficient combustion.

Cast iron fire grate

Durable solution for long-lasting operation.

Cast iron door and top plate

Additional robustness, longer heat retention and a stronger visual character of the stove.

Elegant rounded decorative side panels

Emphasize the modern and sophisticated appearance of the stove.

Low emissions

Cleaner combustion with reduced environmental impact.
