01 Stoves and fireplaces for central heating

Roma E

Elegant central heating with modern efficiency.

Roma E is a modern central heating stove that combines efficient home heating with elegant design, making it an excellent solution for medium-sized homes. Decorative ceramic side panels give the stove a refined appearance, allowing it to blend naturally into both traditional and contemporary interiors.

Tertiary air

Central heating

PRODUCT BENEFITS

Roma E

Details that make a difference.

High efficiency (80%+)

More heat with optimal wood consumption.

Advanced combustion technology

Secondary and tertiary air enable cleaner and more efficient combustion.

Airwash glass system

Keeps the glass cleaner and provides a clear view of the flame.

Door with ceramic glass

Brings additional warmth and a pleasant atmosphere into your home.

Firebrick + vermiculite combustion chamber

Better heat retention and more efficient combustion.

Innovative boiler construction

A specially designed system guides tertiary air through the rear part of the boiler, contributing to the high efficiency of the unit.

Large firebox

Allows less frequent loading and longer heat retention with stable operation.

Decorative ceramic side panels

An elegant finish that enhances every interior.

Wood storage area

A practical solution for everyday use.

Low emissions

Cleaner combustion with reduced environmental impact.
